

I am a taxpayer that demands to be heard. I travel 1 hour to work we also travel alot on long and short trips do not begin to put stupid and self serving restrictions on xm radio. You put restrictions on satelite televison so that I'm not able to get the western channels for national commercial stations and to get these people to "ALLOW" me the taxpayer "permission to do so is impossible, therefore since I work second shift I miss many shows in the evening do to such restrictions. These restrictions were O.K.ed by you. If I want in my car the same luxury that I have at home to listening to weater channels or what ever that should my choice due to living in a capitalist and free society. Big corporations must not be allowed to control my right to choose. Therefore I urge you to reject NAB's petition 04-160. If they win this the corporations will be back to limit more programming.
